AB Bears	4:00 - 5:00
AB Mustangs	5:00 - 6:00

Add'l - pickup	Sun 8/8
All teams	5:00 - 6:30

This is the initial Equipment Fitting and Hand Out Schedule for the 2010 Fall Season. Please be aware of the following:

Fitting over 1000 players is stressful at best. We ask for your cooperation, understanding and willingness to follow the process so that your player will be properly fitted.

Only come during your appointed team time. The shed and check in process is set up to only handle those players that are scheduled in the first sessions. Please do not email for or ask for additional times. Make-Ups will be posted on the web site as they are determined.

The player must be present. for safety, liability and insurance requirements equipment will not be handed out without the player present.

There will be plenty of additional shed openings throughout August. It is a myth that "all the good equipment will be gone if we are out of town and can't come at the assigned time." All of the equipment is cleaned and certified. It is all basically the same.

If for some reason you need to exchange equipment do so during All Team sessions. If your player has not worn a helmet before and says it is too tight it probably isn't. Make sure his coach checks it out before you waste time coming to the shed.

Thanks, with everybody's cooperation and understanding of the process this will go smoothly for all of us.
